

The continent of Africa

The apes

The first human beings

Lions, kings of the jungle, long-neck giraffes

Elephants

Diamond, gold and oil

The uprising against inhumanity

The fight for human rights

Aids, anabolism

Starving of poverty

Poverty as well as wealth

Multiculturalism, song, dance, sport

all originates from Africa

yet this continent

lies in the third world

What is wrong? Who can fix the problem?

And give freedom and welfare to the people of Africa?

Think hard and save the lives of the people of Africa.
